OUR SERVICES

Build UP MEP capabilities in Mechanical, Electrical & Plumbing (MEP) are built around providing feasible and economically viable designs. The company is devoted to develop and discover solutions that are a perfect fit for the Client's objective as well as budgets. The gamut of services offered by Build-up MEP encompasses heating, ventilation, air conditioning, refrigeration, plumbing, fire protection and utility distribution systems.

HVAC Engineering Services

HVAC – a specialist Company in the KSA We provide HVAC (Heating, ventilation & Air Conditioning) systems including automated control systems to expertly manage the climatic working environment of your business Build Up MEP is an experienced HVAC specialist providing a complete environmental solution for your business. Based on demographics alone, regulation of temperature, heating and air conditioning control is a vital part of business life in the KSA due to the high working temperatures involved.

scope of work:

- AHU, PACU, VRV, VRF, DX
- Chilled Water Systems
- Indirect Direct Evaporative Cooling
- Exhaust and Smoke Exhaust
- Ducting and Piping Systems

Plumbing and fire fighting engineering services

Our plumbing services team handles all aspects of plumbing, water supply, drainage, swimming pool filtration systems & firefighting works. Our plumbing engineers design with an approach in influencing high water efficiency, energy, fire protection, pollution systems and a sustainable site. We are able to provide assessments, recommend alternatives, and thus provide high-functioning systems that meet the client's very specific individual need as well as assisting in conserving natural resources.

Scope of work:

- Hot and Cold Water Supply Systems
- Drainage and Waste Systems
- Compressed Air Systems
- Water Filtration Systems
- Irrigation Systems
- LPG Systems
- Dry and Wet Sprinklers System
- Clean Agent Systems (FM200, Novec, CO2, Foam)

Electrical Engineering Services

We offer a complete service from feasibility study to conceptual design and installation. We offer electrical engineering services throughout then Dubai and in Abu Dhabi. We have preferred contractor status for many of the regions high profile clients where we offer longstanding relationships built around our ability to provide innovative solutions. We also work closely with design teams as a preferred contractor where we carry out project work specifically to your requirements

Scope of work:

- | | |
|--|--|
| - Transformers | - Fire Alarm Systems |
| - Power Distribution (MDBs, DBs, PP's and LPs) | - Security Systems (CCTV, Access Control, Intrusion Detection) |
| - Power and Lighting Systems | - Public Address Systems |
| - Lighting Control Systems | - Structure Cabling Systems |
| - UPS and Battery Systems | - Data and Telephony Systems |
| - Photovoltaic Systems | - Systems Integration |
| - Busway Systems | |

Full MEP Design & Installation Works

We are able to undertake complex MEP design and build projects at any level, up to major residential, commercial and industrial sector projects with high. We offer a full MEP design and build service for our clients using the most innovative and energy efficient products to provide state-of-the-art installations which save both time and cost throughout the construction phase and provide a cost effective and maintainable end product to our clients.

Maintenance And After Sales Contracts

We are a highly successful maintenance services company and we will work with you to protect your investment. Build UP MEP Trusted by a diverse range of clients, across many business sectors, we deliver the highest quality support to critical operational facilities. We provide both reactive and planned preventative maintenance services across a range of market sectors including banking and finance, industrial, commercial, pharmaceutical and retail.

BUSINESS OPERATOIN OPERATIONAL ACTIVITIES

PROJECT MANAGMENT

PROJECT MANAGEMENT

PROJECT TEAM

- Experienced management teams provide detailed attention throughout the project, from design, review, and implementation.
- Qualified superintendents, trained in document, project and data control processes, are assigned to project types in which they have specific experience and expertise.
- Proven estimating skills and systems manage costs and contracts with cross-training for all levels of employees.

PROJECT KEY STEPS

1	2	3	4	5	6
PRE-QUALIFICATION	TENDERING PHASE	CONTRACT NEGOTIATIONS	CONSTRUCTION	PROCUREMENT & CONSTRUCTION	WARRANTY PHASE
•Receipts of pre-qualification materials •Handing in pre-qualification documents •Receiving pre-qualification	•Receipt of tender documents •Processing of the tender document. •Handing over the offer.	•Negotiating the offer •Receipt of the contract. •Contract signing	•Implementation/kick off. •Process engineering	•Procurement •Civil construction and erection of the electromechanical equipment's •Commissioning and test runs	•Warranty Phase •operational management as per contract agreement (only applies in WP projects)

PROJECT CRITICAL PATH & DATA MANAGEMENT

CRITICAL PATH SCHEDULES

- Consistent utilization of critical path schedules to plan, manage and control projects.
- Tracking of long lead time items, permitting critical path tasks and adjustments for unforeseen weather conditions.
- Durations includes start and end dates key milestones work scope and deliverance for all phases of the project.

DATA MANAGEMENT SOFTWARE

- Extensive use of Expedition software a multi-user, multi-project, client/server database. Implemented for each project, controlling document and information.
- Organization of daily reports, meetings minutes submittals, RFILS, costs reporting.

Insurance and project team contact information.

- Historical data used to resolve issues questions answered linking for quick referral.
